

HAND DRYER BACKPLATE

NEW

American Specialties, Inc. Now Offers an Optional Ceramic Backplate for the TRI-Umph™ Hand Dryer

Thanks to the unique absorbing ceramic plate featured on the TRI-Umph™ Hand Dryer, water is kept off the floor. That same absorbing material is now available as an optional backplate, perfect for situations where owners would not want even a droplet of water on the wall behind the unit.

- Large absorbing/evaporating ceramic plate covers the wall directly behind the opening of the unit
- Plate matches the ceramic plate on hand dryer
- Installation can be retroactive

Optional Ceramic Backplate
